New Hampshire Public Television
Annual Report 2001-2002

A Message to NHPTV’s Friends

In Fiscal Year 2002, New Hampshire Public Television invested in programs and services that made a difference in the lives of people throughout Northern New England. As a reflection of our efforts, we were honored to be named, for the second year in a row, Station of the Year by the New Hampshire Association of Broadcasters.

Employing cost-effective Internet and distance learning technology, NHPTV’s Knowledge Network worked with New Hampshire’s schools to supply innovative educational content for students and professional development training opportunities for teachers. Together with 32 statewide First Book partners, our Ready To Learn effort provided more than 13,000 free books to children and families in need. As one of PBS’ select Zoom Into Action pilot stations, NHPTV produced and broadcast 20 local features inspiring young people to volunteer in their neighborhoods.

We also built upon our tradition of quality local production. NHPTV’s nightly newsmagazine, NH Outlook, gained new viewers and garnered critical acclaim, earning five awards from the Associated Press for excellence in journalism.

NHPTV teamed with the New Hampshire Fish and Game Department to produce Wildlife Journal, a new series that explores the Granite State’s wildlife habitats and resources, the people who manage and conserve them, as well as the state’s outdoor recreation opportunities. It joins NH Outlook, and longtime favorites Granite State Challenge, New Hampshire Crossroads Classics, and UNH Wildcat Hockey, to form an unmatched commitment to local programming.

NHPTV ventured beyond the television screen in 2001, presenting special outreach efforts like our Speaking of Women’s Health initiative that brought hundreds of participants to Manchester for a day of sessions and seminars focusing on women’s health issues. Our Web site, nhptv.org, offered users added educational content and an archive of programs available through streaming media.

Our digital broadcasting service area expanded with the completion of the WLED-DT 49 transmitter in Littleton, joining NHPTV’s digital channel 57 on the Seacoast. A recent federal grant means NHPTV can complete its digital mandate in 2003 with the construction of a new transmitter in Keene.

None of these accomplishments could have been achieved without you, NHPTV’s valued partners and supporters. Thank you for keeping NHPTV in mind, and investing in programs that entertain, educate and enrich life throughout our communities.
